LITTELL'S LIVING AGE,
E. LITTELL & CO., cor. of Tremont and Bromfield streets, Boston.

This work is conducted in the spirit of Littell's Museum of Foreign Literature, (which was favorably received by the public for twenty years,) but as it is twice as large, and appears so often, the editor not only gives spirit and freshness to it by many things which were excluded by a month's delay, but while thus extending his scope and gathering a greater and more attractive variety, is able so to increase the solid and substantial part of his literary, historical, and political harvest, as fully to satisfy the wants of the American reader.

The elaborate and stately Essays of the Edinburgh, Quarterly, and other Reviews; and Blackwood's noble criticisms on Poetry, his keen political Commentaries, highly wrought Tales, and vivid descriptions of rural and mountain Scenery; and the contributions to Literature, History, and Common Life, by the sagacious Spectator, the sparkling Examiner, the judicious Athenæum, the busy and industrious Literary Gazette, the sensible and comprehensive Britannia, the sober and respectable Christian Observer; these are interwoven with the Military and Naval reminiscences of the United Service, and with the best articles of the Dublin University, New Monthly, Fraser's, Tait's, Ainsworth's, Hood's, and Sporting Magazines, and of Chambers' admirable Journal. He does not consider it beneath his dignity to borrow wit and wisdom from Punch; and, when he thinks it good enough, makes use of the thunder of the Times.

The steamship has brought Europe, Asia, and Africa, into our neighborhood; and will greatly multiply our connections, as Merchants, Travellers, and Politicians, with all parts of the world; so that much more than ever it now becomes every intelligent American to be informed of the condition and changes of foreign countries. And this not only because of their nearer connection with ourselves, but because the nations seem to be hastening, through a rapid process of change, to some new state of things, which the merely political prophet cannot compute or foresee.

Geographical Discoveries, the progress of Colonization, (which is extending over the whole world,) and Voyages and Travels, afford favorite matter for his selections; and, in general, the editor systematically and very fully acquaints his readers with the great department of Foreign affairs, without neglecting our own.

While the Living Age is desirable to all who would keep themselves informed of the rapid progress of the movement—to Statesmen, Divines, Lawyers, and Physicians—to men of business and men of leisure,—it will be found to be equally attractive and useful to their wives and children. It is indispensable to every well-informed family. We say indispensable, because in this day of cheap literature it is not possible to guard against the influx of what is bad in taste and vicious in morals, in any other way than by furnishing a sufficient supply of a healthy character. The mental and moral appetite must be gratified.

By "winnowing the wheat from the chaff," by providing abundantly for the imagination, and by a large collection of Biography, Voyages and Travels, History, and more solid matter, a work is produced, well calculated for universal popularity, and to raise the standard of public taste.

This excellent work is published every Saturday, by E. LITTELL & Co., Boston, who supply orders by mail from all parts of the country. Remit any sum to them, and they will send the work to that amount. Each number makes a handsome pamphlet of 48 pages double col. octavo. Price, 12 1-2 cts.,—or by the year, six dollars. We add to our own recommendation, what our readers will value infinitely more, a letter from the late Ex-President J. Q. Adams:—

"WASHINGTON, 27th December, 1845.

Of all the Periodical Journals devoted to Literature and Science, which, flooding all Europe and this country, this has appeared to me to be the most useful. It contains indeed the exposition only of the current literature of the English language, but this by its immense extent and comprehension includes a portraiture of the human mind in the utmost expansion of the present age.

J. Q. ADAMS."

PROFESSOR A. C. BARRY'S
TRICOPHEROUS OR MEDICATED COMPOUND.

INFALLIBLE for renewing, invigorating, and beautifying the Hair, removing Scurf, Dandruff, and all affections of the Scalp, and curing Eruptions on the Skin, Diseases of the Glands, Muscles, and Integuments, and relieving Stings, Cuts, Bruises, Sprains, &c., &c. With this preparation, "there is no such word as fail." The first journals in America, medical men of the highest eminence, prominent citizens of all professions, and ladies who have used it for years in their dressing rooms and nurseries, admit with one accord, that, for imparting vigor, gloss, luxuriance, and curl to the hair, eradicating scurf and dandruff, healing wounds, curing contusions, sprains, stings, &c., and relieving diseases of the skin, the glands, and the muscles, it has no equal among the multitude of compounds advertised in the public prints, or used in private practice. In cheapness as well as efficacy, Barry's Tricopherous is unrivalled. The immense cash sales of the article, have enabled the inventor to supply it at retail at twenty-five cents per bottle, which is from fifty to one hundred per cent. less than the price of any other preparation now in use. The scientific treatise on the hair and skin (embracing valuable directions for the culture and preservation of Nature's choicest ornament,) in which each bottle is enclosed, is alone worth the money.

The affinity between the membranes which constitute the skin and the hair which draws its sustenance from this triple envelope, is very close—All diseases of the hair originate in the skin of the head. If the pores of the scalp are clogged, or if the blood and other fluids do not circulate freely through the small vessels which feed the roots with moisture and impart life to the fibres the result is scurf, dandruff, shedding of the hair, grayness, dryness, and harshness of the ligament and entire baldness as the case may be. Stimulate the skin to healthful action with the Tricopherous, and the torpid vessels, recovering their activity, will annihilate the disease. In all affections of the skin, and of the substrata of muscles and integuments, the process and the effect are the same.—It is upon the skin, the muscular fibre, and the glands, that the Tricopherous has its specific action, and in all affections and injuries of these organs, it is a sovereign remedy.

Sold in large bottles—*price 25 cents*—at the Principal Office, 137 Broadway, New York. For sale by the principal Merchants and Druggists throughout the United States and Canadas, and by R. J. TAYLOR, Newport, and J. Balch & Son, Providence, R. I. apr30 6m

From the Boston Cartootype.

Consumption is the great curse of our northern latitude. It is the blight of domestic felicity and the despoiler of beauty. It robs the cheek of its healthful bloom, the mind of its serenity, and the eye of its brilliancy. It wastes the form, dims the intellect, and plunges its victim into an early grave. The young and old, the serious and the gay, the city belle and the country lass, are alike its prey, and its victims. Blessings on the man, then, whose genius and research furnished us weapons to bid defiance to this "Dweller of the Threshold!" He merits the applause and gratitude of ages—he shall have ours, at least.

WRIGHT'S INDIAN VEGETABLE PILLS SUGAR FROSTED.—The Proprietor of this popular Family Medicine thankful for the extensive and increasing favor with which it is received, and feeling desirous of making every improvement in his power, begs leave to announce, that he has added an OUTSIDE FROSTING to the pills, of pure White Sugar, whereby everything disagreeable to the taste or smell is entirely removed, without in the slightest degree affecting in other respects, the excellent qualities of the medicine. The want of an inexpensive and convenient medium of disguising the pills, is generally felt, it is thus supplied, and he confidently anticipates that the frosting will prove highly acceptable to the public. The general use of medicine is a matter of necessity, with the great majority of mankind. Whatever, therefore, is done to remove its disagreeable associations, is a public benefit. The value of Wright's Indian Vegetable Pills is well understood. Innocent and efficacious, free from mineral of every description, and adapted to all the circumstances and conditions of life, they are esteemed beyond all other medicines, as the great family medicine of the day. The frost covering is an addition intended merely to conceal the taste and smell. These Pills will also continue to be prepared without the frosting, for those who prefer them in their original state, and may still be accommodated.

GENERAL DIRECTION.—The ordinary dose for a grown person is four to four Pills; but in cases of violent pain, in any part of the body, the medicine should be taken in large doses, and repeated every night on going to bed, (or oftener if the suffering is great,) until pain, or distress of every kind is removed, after which, the medicine should be taken merely with a view to keeping the bowels regular, which will in a short time restore the body to a state of sound health.

For more particular directions, see the circular accompanying each box.

NEWPORT.

BY CRANSTON & NORMAN,

197 THAMES STREET.

FRIDAY MORNING, SEPT. 13, 1850.

☞ The remains of the late Rev. William Patton, D. D., Pastor of the Second Congregational Church, in this town, for a period of nearly half a century, arrived here yesterday morning. They were brought from Hartford, Conn., where he died in the year 1839, and are to be re-interred in the space in front of the United Congregational Church, near the remains of the late Dr. Hopkins. For a long series of years these eminent Divines officiated in this town, Dr. Hopkins as Pastor of the First Church, and Dr. Patton as Pastor of the Second Church; a strong spirit of rivalry always prevailed between the two Churches. Finally all differences were settled, and the two churches united, and their present house of worship erected. And now it is highly appropriate that as the differences between the sect churches are all buried, so the remains of the two distinguished Pastors should sleep side by side, in front of the United Church. A monument is to be raised over them.

☞ There is no season in Newport which is so delightful as the present; we are now enjoying that delightful Indian summer weather which gives such elasticity to the spirits, and invigorates our whole being. The air is clear and pure and as balmy as could be desired. Such visitors as are still here, manifest their good taste by remaining after the crowd and confusion have subsided, to enjoy the luxuriousness of an Autumn in Newport.

☞ There is to be a meeting at Oregon Hall this evening for the purpose of appointing a Committee to make the necessary arrangements to secure funds to educate a female at the Medical School in Boston, for the purpose of practising in this town after the completion of her education. The public are invited to attend. See advertisement in another column.

☞ If you want one of Mellitre's exquisite Daguerreotypes, you must secure it today, as you will not have another opportunity.

THE EXCHANGE COFFEE HOUSE, BOSTON.—Notwithstanding the numerous new candidates for the favor of the travelling public springing up in all parts of Boston, the old and long celebrated Exchange Coffee House, Congress Square, under the management of Messrs. McGill & Fearing, still holds its own on the recommendation of the business community. The location, near the Post Office, Banks, Custom House, and Insurance Offices, is the very best in the city for those who travel for business purposes; while the rates of charge, one dollar per day for transient board, are so moderate that the most prudent will be satisfied with them.

DEATH OF BISHOP BASCOMB.—We learn that a despatch was received yesterday by the Rev. John Hurst, of this city, announcing the death, at Louisville, Ky., on Sunday last, of the Rev. Henry B. Bascomb, one of the Bishops of the Methodist Episcopal Church, South. Bishop Bascomb was known throughout the union as one of the most eloquent pulpit orators living. He has been ill for some time, and his death was looked upon as more than probable.—*Balt. Sun.*

FIVE DOLLARS FOR A GLOVE.—We saw a gentleman, yesterday, who paid five dollars for one of Jenny Lind's gloves. She lost it in her rambles about the new hall in Mercer st; one of the workmen found it and sold it to an ardent admirer for the above sum. The owner charges two dollars for an inside kiss of the glove, and one shilling for an outside.—*New York Day Book.*

WEALTH OF THE CITY OF PROVIDENCE.—Nearly one-half of the entire wealth of the city of Providence, is in the hands of less than six score of persons and corporations. A list of the taxable property in the year 1850, gives the total amount at $31,050,600, on which the assessment is 52 cents on each $100. One hundred and six persons, corporations and estates own over $14,000,000, or nearly one half this amount. The greatest tax is that of Alexander Duncan and family, $8,256,34; Thomas P. Ives' heirs pay $5,773,82; Richmond Bullock's heirs, $3,706,18; Nicholas Brown's heirs $2,396 60, William Jenkin's heirs $2,025 66.

There are seven who pay a thousand and upwards; thirty-four who pay more than $500, and sixty-one over $200.—This shows a great concentration of property.

☞ The following is an extract from a letter from a Newporter in California, to his friends in this town:—

North Fork of the American River, July 20th, 1850.

A great many females are flocking into the country from Sydney; and other British Colonial and Convict settlements; many of these Sydney women can be bought for four or five ounces, for house-keepers, if application is made soon after the vessel arrives at San Francisco.

While I was in Sacramento City, some enterprising Yankees brought down three or four thousand pounds of snow from the Sierra Nevada, which they sold readily at one dollar per pound; and such a rush as there was to the bar-rooms, and saloons, on that memorable occasion, was never known before, in that great "city of the west," not even by the "oldest inhabitant." Iced punches, mint juleps, sherry coblers, and all of those mysteriously concocted beverages, peculiar to hot weather, flowed in unbroken streams down the throats of *dusty* citizens of this city, and vicinity; in consequence of these potations, a great many were considerably *elevated*, and not a few were laid low and bit the dust. As for me, being a staunch "Son of Temperance of Pacific Star Division, No. 1, Sacramento City," I could not indulge in any of these tempting beverages, but made it up in iced soda water, mead and ice creams; we are getting all the luxuries that people enjoy at home, only we have to pay rather high for them.

In Auburn, on the 4th of July, the Miners had a grand celebration; processions with banners flying, music playing, and a great deal of the pomp and circumstance, usual on such occasions, was displayed.—The Artillery used was manufactured from pine logs, several of which "busted," with a great noise, thereby adding to the glory of the occasion. A sumptuous dinner was partaken of at the Empire Hotel, (a log cabin) an oration was delivered by Capt. George Howland, of Newport, and the festivities concluded with a "grand ball," at which *six ladies* were present, two of whom could dance,—and one hundred and fifty gentlemen. They tripped the light fantastic until the grey light of morning peeped in upon their revels, when they departed to their several "places of abode." And thus was the anniversary of our glorious Independence, celebrated mid the venerable hills, golden valleys and majestic forests of this [illegible] land of freedom.

As an evidence of the luxurious habits of Californians, I will astonish you a little by stating that they actually smoke tobacco in *golden pipes*. I have seen them in Sacramento City made of pure gold, beautifully finished, and worth from sixty to a hundred dollars; and it is not rare, after dinner, to see a man sitting on the balcony of some first rate hotel, with his heels on the table, coolly smoking a hundred dollar pipe, or picking his teeth with a diamond-mounted golden toothpick. I expect soon to see them eating from gold plates.

There are some great *walkers* in California, for almost all who go to the Mines, journey there *footback*, as the Westerners phrase it; and they sometimes perform great pedestrian feats. D. and myself walked *fifty-one* miles one day last winter, twenty-three of them before breakfast, to which we did ample justice, and the meal being so dollars each, we reckoned that they made but little out of us on that occasion. When I went to Sacramento City from Auburn, a short time since, there being no vehicles bound thither, except ox-teams, which travel rather tardily, I was constrained to go a-foot. I walked 15 miles before breakfast, and 28 afterwards, making 43 in all, before dinner, which I ate about 4 P. M., and this, too, on the hottest day of this summer, when at 9 P. M. the thermometer stood at 110 in the shade, where the sun had been during the day. What must it have been at noon, on the road!—It reminded me of old times in other lands. In the road between here and Sacramento City, there is a Tavern or road-side Inn, that bears a sign board, on which is written in large letters, "LET UP AND JINGLE." It was translated thus,—"Let up," means halt, stop or reign up your horses; "Jingle" is a delicate hint for travellers to rattle their silver and gold, or jingle it on the counter, and spend it freely for liquors, refreshments, food and lodging.

When I came to the mines this Spring, the whole route was literally a flower-garden, where many of the rarest and most beautiful flowers I ever saw grew in abundance; the grass, too, was deeply dark and beautifully green, and the face of nature was clean, cool and refreshing. Now how different! The flowers have disappeared, the grass is yellow and withered, and the earth is parched, dusty, and dirty, to an more looks of which makes one hot and thirsty. The weather is hot, such as you in the "Eden of America" have no conception of. It is said that when some of the Miners cook dinner, they merely put their pork and beef-steaks in the frying pan, and place it in the sun, and if they do not hustle themselves sharply, the fat will take fire and burn up the meat. One teamster told me it was so hot on the road, last Thursday, that he was obliged to make a fire and sit beside it to cool himself. Nobody works between 11 A. M. and 4 P. M., but they lie in the shade, and sleep the Siesta. Great numbers of new-comers are continually pouring into the Mines; some of these are the most verdant specimens of humanity that I ever saw in all my travels. They ask the strangest questions that you ever heard of. One of them said, "How far apart do you find the lumps, Mister?" He was told, in a confidential whisper, that the *small* lumps laid about three feet apart, and that all over an ounce were found exactly *five inches* from each other, in a *North easterly* direction. The genius walked away, perfectly satisfied with the information which had been imparted to him. Another, after plying a friend of mine with a multitude of foolish questions, concluded by enquiring the exact amount that he had dug. (an upper 10 spoken) my friend very coolly replied that he could not tell, precisely, for that he has as he got a barrel full, he headed it up and stored it away,—and he could not recollect the exact number of barrels. The man did not ask any more questions, but he looked as if he wished he knew where the barrels were kept.

The other day I went to "Kelly's Bar," on the North Fork; the river there is spanned by a substantial wooden bridge, lately constructed, which is strong enough to carry wagons heavily laden. A *bridge* is somewhat of a curiosity in California. On my return from "Kelly's Bar," I stopped awhile at the "Mis-outi House," a log cabin on the road-side; here there was a young Grisly bear, perfectly tame. I amused myself by playing with him for some time; when, looking up, I saw a notice upon the wall which may be considered a curiosity of Literature. Upon it was written, in a nondescript hand, the following brief but impressive lines, which I shall not soon forget,—"Treble the Bar-nut." Upon inquiry I found that *Bar* was not the "Liquor Bar," nor "Kelly's Bar," but the *Grisly Bar*; of course, in obedience to the notice, I ceased my playful attentions to the amiable cub. Among other curiosities at the Mansion House I saw a number of Indian scalps hanging upon the outer wall of the cabin; these scalps were torn from the heads of the Indians who were slain in the combat I told you about in my letter last May. Among the various species of wild animals in California, is one half wolf, half fox, called the *Coyote*, pronounced Kioty; this beast is a great thief, and goes about in the night seeking what he can steal that is eatable. When prowling near a human habitation, the Coyote is silent, but when away upon the hills, or travelling upon the carcass of a dead mule, horse, or ox, it keeps up a sharp, shrill, yelping cry that can be heard for miles.

A few days ago a party of 15 Chinese, fresh from the celestial empire, came into these diggings, in full costume, with their cradles, pans and other mining implements. It was astonishing to hear them "how-dee-doo" to one another. We have heard that large bets have been lost in Europe, by gentlemen who mistook her beautiful tones for those of a flute." If this is the fact, why do not some of these running mad New Yorkers, engage a good flute-player an evening or two, and gratify their curiosity at something less than $ 25 for a single ticket?

The following interesting extract is from John Adam's diary, soon to be published by Little & Brown, giving an account of his first appearance in Faneuil Hall, in 1770:

"I had never been at a Boston town meeting, and was not at this until messengers were sent to me to inform me that I was chosen [representative of Boston.] I went down to Faneuil Hall and in a few words expressive of my sense of the difficulties and danger of the times, of the importance of the trust, and of my own insufficiency to fulfil the expectations of the people, I accepted the choice. Many congratulations were offered, which I received civily, but they gave no joy to me. I considered the step as a devotion of my family to ruin, and myself to death; for I could scarcely perceive a possibility that I should ever go through the thorns and leap all the precipices before me, and escape with my life.

At this time I had more business at the bar than any man in the Province. My health was feeble. I was throwing away as bright prospects as any man ever had before him, and I had devoted myself to endless labor and anxiety, if not to infamy and to death and that for nothing, except what indeed was and ought to be in all, a sense of duty. In the evening, I expressed to Mrs. Adams all my apprehensions. That excellent lady, who has always encouraged me, burst into a flood of tears, but said she was very sensible of all the danger to her, and to our children, as well as to me, but she thought I had done as I ought; she was very willing to share in all that was to come, and to place her trust in Providence."

We are requested to state that the funeral of A. Gracie Lawrence, will take place to-day at 2 P. M. from the residence of his father Wm. Beach Lawrence, Esq. The friends of the family are respectfully invited to attend.

No person who has once yielded up the government of his mind, and given loose reign to his desires and passions, can tell how far they may carry him.

Laziness grows on people; it begins in cobwebs and ends in iron chains.

CONGRESS.

WASHINGTON, Wednesday, Sept. 11.

SENATE.—Mr. Fremont introduced bills to extend judiciary laws, to create the office of Surveyor General, and restrict the Indian claims in the gold regions of California, of which notice was given yesterday.

The bill for the relief of the Colonization Society was taken up and passed.

The Senate then resumed the consideration of the slave trade bill.

Mr. Hamlin expressed himself strongly against Mr. Seward's proposition and in favor of the slave bill.

Mr. Badger explained his personal allusion of yesterday.

Mr. Clay is now speaking in favor of the original slave trade bill.

HOUSE.—The House immediately took up Mr. Robinson's proposition to admit the representatives of California forthwith, which was adopted, 109 to 59.

The representatives appeared, were sworn in, and took their seats.

The case of the contested election in Pennsylvania was then taken up, and Mr. Strong spoke in favor of Robbins, the claimant.

Mr. Van Dyke replied in support of the minority report, and in favor of the contestant.

NEW YORK, Sept. 11.

I have just heard from good authority that it is the intention of Jenny Lind to give her share of the nett proceeds of her first concert, this evening, amounting to considerable more than ten thousand dollars; to the various charitable societies in the city of New York. A noble instance of her generosity. The following is a list of the societies to share in the distribution: Fire Department Fund Society, $2000; Musical Fund Society, $2000; Society for the Friendless, $500; Society in aid of Indigent Females, $500; Dramatic Fund Association, $500; Home for Colored Aged Persons, $500; Colored Orphan Asylum, $500; Lying-in Asylum for Destitute Females, $500; New York Orphan Asylum, $500; Roman Catholic Half Orphan Asylum, $500; Protestant do, $500; Old Ladies Asylum, $500, and in case the monies coming to her shall exceed this sum, she will hereafter designate the charities to which it is to be appropriated.

☞ The New York Herald, speaking of Jenny Lind's voice, as heard at a rehearsal on Tuesday last week, says: "So soft, so exquisitely sweet was it, that those who heard it, could not, at some moments, distinguish between it and the flutes." The Herald adds—"We have heard that large bets have been lost in Europe, by gentlemen who mistook her beautiful tones for those of a flute." If this is the fact, why do not some of these running mad New Yorkers, engage a good flute-player an evening or two, and gratify their curiosity at something less than $ 25 for a single ticket?

☞ The only finished place in this country, is Lansinburgh, up in New-York. For the last twenty years, one of the newspapers in the neighborhood informs us, there has not been a board added or a nail drove in the whole place. A man undertook to repair his stoop last week, but he was promptly arrested and sent to jail.—Platt says the whole village still believe that De Witt Clinton is Governor of York State.

To the Hon. Court of Probate, of the Town of Newport to be holden at Newport on Monday, September 9th 1850.

The Subscriber administrator, of the estate of SILAS WARD, late of Newport, dec'd, would respectfully represent, that the amount realized from the sales of the Inventory and other sources of said deceased's estate, amounts to the sum of twenty eight hundred and eighty eight dollars, fourteen cents; and that the claims against said estate, allowed by the Commissioners, as appears by the record of this Hon. Court amounts to the sum of fifty three hundred and twenty dollars and thirteen cents including sixteen hundred dollars, secured by Mortgage on the part of the said deceased, real estate, known as the "Soap House," which leaves a balance to be provided for, [exclusive of interest since his decease,] of twenty-four hundred and thirty-one dollars and ninety-nine cents. Wherefore he prays this Hon. Court, that he may be authorized to sell so much of the Real Estate, [or the whole if necessary,] of said Silas Ward in this town, as shall be sufficient to cancel said claims, with the incidental expenses.

CAUTION TO THE PUBLIC.

IT is now some eight years since the Tea Business, as an exclusive business, was commenced by Fletcher & Co., in this city, during which time the Establishment has flourished beyond expectation. They have furnished their customers with both Teas and Coffees at prices less than other dealers could buy,—which has caused numberless imitations of their stores, some of which initious have closed; others are still lingering on, using our name, and by this means imposing upon the public; and it is to prevent this

GROSS DECEPTION,

that the New England Tea Company, of Boston have determined to change the name of their store in Providence, which will henceforth be known by the name of the NEW ENGLAND TEA COMPANY.

☞ Remember that the only Stores of the Old Original Tea Company are at 54 Westminster Street, Providence, and 130 Washington Street, Boston, and are distinguished by the name of the
NEW ENGLAND TEA COMPANY.

TO FAMILIES,

they offer, in 6 lb. boxes, lined, and rendered imperious to the air,

NEW SEASON TEAS,

6 pounds	Souchong,	$1,60	1,92	2,10
6 do.	Extra Oolong,	2,40	2,70	3,00
6 do.	Ningsung,	2,10	2,40	2,70
6 do.	Young Hyson,	2,40	2,70	3,00
6 do.	Old Hyson,	2,10	2,70	3,30
6 do.	Gunpowder,	3,00	3,30	4,20
6 do.	Imperial,	3,00	3,60	4,20
6 do.	Hyson Skin,	1,80	2,10	2,70

Upon application to the New England Tea Company, Boston, dealers can obtain teas on the most favorable terms, and in packages of every size.—Orders by Express promptly attended to.

A NEW & VALUABLE IMPROVEMENT IN DAGUERREOTYPING.
THE MAGNETIC BOX.
MR. J. A. Williams, would inform his friends and the public that he has an improvement upon the common magnetic hand buff, his being in the form of a wheel and geared in such a manner that its velocity will produce a greater quantity of Electro Magnetic Fluid than can possibly be produced by the hand buff. In this manner the plate is highly polished and at the same time so well charged with the Magnetic Fluid as to produce Daguerreotypes of a superior quality almost instantly.
Rooms in Case's building near the Fountain at the foot of Parade. jy20.

MR. LAWRENCE takes great pleasure in stating to the inhabitants and visitors of Newport, that his new Daguerrian Gallery, opposite Atlantic House, is now ready for visitors, where may be seen many specimens of eminent gentlemen and Ladies, such as the Rev Dr Cox, Patten and Skinner, Father Matthew, the Hon. Henry Clay, John M Botts &c &c. Also he would state that the new sky-light which he has had constructed, is a facsimile of the one at New York, which has gained him so much celebrity for the bold, mellow, life-like tone of Pictures which it produces.

A GOOD CHANCE FOR A BAKER
FOR SALE a lot of land containing 10 1-2 acres of good land situated in the town of Whinchenson, Worcester county, Mass., it is within 3 1-2 miles distance from four very thriving manufacturing villages; two lying at the north and the other two south. It is one of the very best opportunities for establishing a Bakery, there being no Bake-house within 10 miles, the above piece of land is in a corner lot containing about 12 acres, there is no application for one acre, and wishing to reserve half an acre for myself, would sell the remaining 10 1-2 acres at the low price of *four hundred dollars*, one half the amount in cash, the balance may stand for a number of years if desired; the lot is well walled on three sides, on the other side is a slip of young Wood, some trees of good size, probably about 8-4 of an acre in this part. There is a fine chance to building on the front, the land is very convenient to fence into pastures, and for mowing for horses and cows; one part is watered by a spring. There is also a large number of bearing pear trees upon the lot. Fuel is very low, the best of soil and hard wood is sold there from $2 to $3 a cord. For further particulars enquire of EDWARD BARKER, Second street, Newport, or by post paid application to

A GREAT CHANCE TO MAKE MONEY
To lease for five years, from October next, my Confectionary Store, in South Touro Street, with a good run of custom as ever I had for the last 22 years, and always will have as long as the Creams are continued to be made like YOSE'S Opposition after opposition has come from New York and other places, with flaming advertisements, but it was of no use—advertisements only don't add to the richness of the Cream. I will also sell all my fixtures, marble tables, carpets, soda works, moulds, pyramids, baking utensils and everything to carry on the business with all the "secrets of the order" or trade. Any one wishing to buy that don't understand the business cost work with me through the Season and become initiated in the business, so as to carry it on. The business is a good business, and the reason that I give it up is because it has been so. For further information inquire of

MRS. E. KIDDER'S CORDIAL
The most perfect remedy for the cure of Cholera, Cholera Morbus, Dysentery, Summer Complaints of Children, and Diarrhea, either recent or protracted.
THE public have been familiar, with this medicine for nearly twenty years; and through its intrinsic merits it has created for itself a wide spread market, both in this and distant countries. It has never been equalled by any other medicine, and there is no probability that it ever can be excelled. Its powers in effecting an immediate CURE in every case of
CHOLERA, DYSENTERY, AND DIARRHEA,
in every country, and in every climate, has astonished the world. Physicians have looked on their dying patients with wonder and astonishment, at seeing them revive and become restored, when the last spark of life seemed to be flickering, and all hope of recovery had fled. Such cases have been every-day occurrences. It is not too much to say, that not a single case from either of these diseases need be lost, when this medicine is administered in any reasonable time, to cure it to cure.
It seldom requires more than a few days to cure the worst cases; and all recent cases are cured in the course of a few hours.
At this season of the year every family should have it at hand in case of sudden attacks as the immediate use of the Cordial will entirely prevent any serious sickness.

DR. CHRISTIE'S GALVANIC BELT, BRACELET NECKLACE AND MAGNETIC FLUID.

For the Removal and Permanent Cure of all

NERVOUS DISEASES.

And of those Complaints which are caused by an impaired, weakened or unhealthy condition of the

NERVOUS SYSTEM.

This beautiful and convenient application of the mysterious powers of GALVANISM and MAGNETISM, has been pronounced by distinguished physicians, both in Europe and the United States, to be the *most valuable medical discovery of the age.*

Dr. CHRISTIE'S GALVANIC BELT

and

MAGNETIC FLUID,

is used with the most perfect and certain success in all cases of

GENERAL DEBILITY,

Strengthening the weakened body, giving tone to the various organs, and invigorating the entire system. Also in FITS, CRAMP, PARALYSIS and PALSY, DYSPEPSIA or INDIGESTION, RHEUMATISM, ACUTE and CHRONIC GOUT, EPILEPSY, LUMBAGO, DEAFNESS, NERVOUS TREMORS, PALPITATION OF THE HEART, APOPLEXY, NEURALGIA, PAINS in the SIDE and CHEST, LIVER COMPLAINT, RENAL COMPLAINT, and CURVATURE of the SPINE, HIP COMPLAINT, DISEASES of the KIDNEYS, DEFICIENCY OF NERVOUS and PHYSICAL ENERGY, and all NERVOUS DISEASES, which complaints arise from one simple cause—namely,

A Derangement of the Nervous System.

☞ In NERVOUS COMPLAINTS, Drugs and Medicines *increase the disease*, for they weaken the vital energies of the already prostrated system; while under the strengthening, life giving, vitalizing influence of Galvanism, as applied by this beautiful and wonderful discovery, the exhausted patient and weak-ened sufferer is restored to former health, strength, elasticity and vigor.

The great peculiarity and excellence of

Dr. Christie's Galvanic Curatives,

consists, in the fact that they arrest and cure disease by *outward application*, in place of the usual mode of drugging and physicking the patient, till exhausted Nature sinks hopelessly under the infliction.

They strengthen the whole system, equalize the circulation of the blood, promote the secretions, and never do the slightest injury under any circumstances. Since their introduction in the United States, only three years since, more than

60,000 Persons

including all ages, classes and conditions, among which were a large number of ladies, who are peculiarly subject to Nervous Complaints, have been

ENTIRELY AND PERMANENTLY CURED,

when all hope of relief had been given up, and every thing else been tried in vain!

To illustrate the use of the GALVANIC BELT, suppose the case of a person afflicted with that bane of civilization, DYSPEPSIA, or any other Chronic or Nervous Disorder. In ordinary cases, stimulants are taken, which, by their action on the nerves and muscles of the stomach, afford *temporary* relief, but which leave the patient in a lower state, and with injured faculties; after the action has ceased he feels Now comes the question with the different results from the application of the GALVANIC BELT. Take a Dyspeptic sufferer, even in the worst symptoms of an attack, and simply fix the Belt round the body, using the Magnetic Fluid as directed. In a short period the insensible perspiration will setup the positive element of the Belt, thereby causing a Galvanic circulation which will pass off to the negative, and thence back again to the positive, thus keeping up a continuous galvanic circulation throughout the system. Thus the most severe cases of DYSPEPSIA are PERMANENTLY CURED. A FEW DAYS IS OFTEN AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS.

CERTIFICATES AND TESTIMONIALS

Of the most Unimpeachable Character,

From all parts of the Country, could be given, sufficient to fill every column in this paper!

AN EXTRAORDINARY CASE,

which conclusively proves that

"Truth is stranger than Fiction."

The following letter, narrating one of the most remarkable events in the annals of Medical Science, is from the

Rev. Dr. Landis, a Clergyman

of New Jersey, of distinguished attainments and exalted reputation:—

SUSSEX, New Jersey, July 12, 1848.

DR. A. H. CHRISTIE—Dear Sir: You wish to know of me what has been the result in my own case, of the application of THE GALVANIC BELT AND NECKLACE. My reply is as follows:

For about *twenty* years I had been suffering from Dyspepsia. Every year the symptoms became worse, nor could I obtain permanent relief from any course of medical treatment whatever. My physicians were skilful and excellent men, but their prescriptions failed. About fourteen years since, in consequence of frequent exposure to the weather, in the discharge of my pastoral duties, I became subject to a severe Chronic Rheumatism, which, year after year, caused me intolerable anguish. In the severer paroxysms, the skill of my physicians sometimes afforded me great relief; but this relief was only temporary. Farthers in the winter of '45 and '46, in consequence of preaching a great deal in my own and various other churches in this region, I was attacked by the Bronchitis, which soon became so severe as to require an immediate suspension of my pastoral labors. *My nervous system was now thoroughly prostrated*, and as my Bronchitis became worse, so also did my Dyspepsia and Rheumatic affection—thus evincing that these disorders were connected with each other through the medium of the Nervous System. My sufferings were indeed severe, and I had no prospect other than being entirely laid aside from the discharge of those duties, and the performance of those labors in which my soul has ever found the highest of her joys.

But resuming from effect to cause, I concluded that the *Nervous System* must be repaired, before any hope could be indulged of my obtaining relief from these most distressing maladies. In the whole pharmacopeia there seemed to be no remedial agent which could reach and recuperate my Nervous System; every thing that I had tried for this purpose had completely failed. At last I was led by my friends to examine your invention, and through with no very sanguine hopes of their efficiency, I determined to try the effect of the application of the GALVANIC BELT AND NECKLACE, with the MAGNETIC FLUID. This was in June, 1846. To my great astonishment, in two days my Dyspepsia had gone; in eight days I was enabled to resume my pastoral labors. My nervous system was now thoroughly *invigor
